## Sewer Outlet Gate Falls, GC Nearly Flooded

**Sewer Water Backflows Into Streets, Cellars; Quick Action Saves City**

Quick action by Army Depot officials, the contractor and the Granite City street department prevented the city from being completely inundated with sewage Friday morning when a new gate valve being installed on the city's 108-inch gravity outlet sewer fell into a closed position at the construction site of the depot. Basements and streets in low-lying sections of the city were flooded for several hours.

The mishap was discovered at 8 a.m. when workmen arrived at the site. It is believed the gate fell about 7 a.m. shutting off the sewage flow, and the nine-foot sewer was filled in an hour. Sewage was beginning to back up into basements in Lincoln Place, West Granite, Tri-City Park and the behind-the-mill area and at the depot. No estimate of damage was available. City officials believe over 100 basements had several inches of sewer water in them.

About four to six inches of sewer water backed onto Poplar street, and the street department was advised about 10 a.m. that manholes were overflowing in the Tri-City Park area.

Mechanism to raise and lower the heavy metal gate, owned by the contractor, General Contracting Co., completed the job in an hour's time for a hand operation. The gate had been propped open with blocks and cables when the workmen left the site Thursday afternoon. It is not known what caused the gate to drop.

**Depot Acts To Save City**  
In the meanwhile, Col. John M. Ansley, depot commander, and Major Alvin Morgan, director of services at the depot, reached a quick decision to open other valves and pump out millions of gallons of the sewer water to flow into five open drainage ditches at the depot.

At the same time, Street Supt. William Warfield was busy on the telephone notifying industries to cut off the flows of cooling water. He notified Granite City Steel, General Steel Industries and Dow Metal Products. The industries cooperated without any production stoppage.

Within an hour, a hand screw had been attached to the heavy gate, and after several minutes the contractor had moved it by the crane and raised it. The gate, when completely installed, will be raised and lowered by an electric motor.

## Discuss Citizen Group For Bond Issue

**April Date Dropped, School Referendum Likely To Be In May**

Dropping plans for a joint referendum on bond issues and the April, the Granite City school board indicated Friday night that a bond issue and tax rate election will be held in May. Supt. Harold M. Kaiser was asked to submit an election date at a regular board meeting tomorrow night.

Formation of a citizens' advisory committee was discussed favorably, and one of its principal tasks would be to recommend whether to include a bond issue in the election.

Four persons were injured in a two-car collision about 11:30 a.m. Sunday at the intersection of Route 3 and U.S. Highway 40. Hospitalized here was Virginia Cox, 39, of 2824 Marshall avenue, a county recorder of deeds employee, who suffered neck and knee injuries and cuts to her face and scalp.

State police said she was a passenger in an auto driven by James Steiner, 25, of St. Louis, who suffered minor injuries. He was charged with disobeying a stop sign.

In the other auto, Howard P. Richter, 49, of Belleville, was the driver, and one of seven passengers, Vickie McDaniel, 7, of Belleville, also suffered minor injuries.

Police said Richter was going west and making a turn at the intersection when he was struck by Steiner's auto.

The crash occurred where Route 111 is two-lane about a half-mile north of Interstate 70. State police said Mrs. Hilliard was driving north, while Jordan was going south. The crash occurred in the northbound lane. It was missing.

The impact swung the Jordan auto around and was on the east shoulder facing north. The Hilliard auto remained in the northbound lane. State Trooper Fred Perry reported.

The five Granite City women had been in Lebanon to conduct a class of instruction. Mrs. Hilliard was vice-president of the state Rebekah Assembly and the other four were traveling extensively. She was to have been installed as president later this year.

State police said Mrs. Hilliard was a Wahash Railroad yard clerk and the father of four children. Jordan, the driver of the other auto, is in critical condition at St. Mary's Hospital with head injuries and a knee fracture.

It is subject to approval by the state highway division. Road work from Mercedia to Salvester street also is designated as MFT arterial and plans are being made for work to be completed on Hogan, Hampton and Allen streets at the same time.

A sliding scale agreement for engineering services for motor fuel tax work was renewed with the consulting engineering firm for Shepley, Morgan and Schwab.

That firm also obtained a contract to draw an up-to-date map, to include locations of manholes, not to exceed \$650. The exact cost will depend upon the amount of field work required.

**Major John Lee** announced plans to create a traffic safety council.

## School District To Build Wak To Maryville School

Construction of a 100-foot-long concrete sidewalk at an estimated cost of \$3500 was approved Friday night by the Granite City school board, pleasing the parents of the Maryville grade school PTA members.

The work will be done this week by an unincorporated highway department performing the engineering work necessary to establish the location and elevation. Title will be dedicated to the state, and who will perform future maintenance has not been decided.

The walk will be located on a 60-foot right-of-way to be secured by the city. Plans are being made to install a 44-foot-wide four-lane concrete roadway with curbs along Maryville road in the summer of 1965. The city of Granite City has pledged to participate in the project, paying a portion of the street inside the city. The paving contractor would guarantee to leave the sidewalk in good condition.

## 1120 Volunteers Administer 52,737 Oral Polio Feedings

Despite rain, strong winds and the threat of tornadoes, 52,737 Madison countyans, including 30,253 Quad-Cityans, visited oral polio vaccine stations yesterday to receive the first of two doses. Similar clinics are to be held May 3 for the second dose.

A special makeup clinic is being arranged for operation on Friday for Quad-Cityans and Madison countyans at the Washington theatre lobby. The exact time and place will be announced later, according to Mrs. Nina Bigley, county March of Dimes chairman who aided in arranging yesterday's mass immunization.

D. B. Berman, president of the Tri-City Medical group, said the program was 65% effective in the Quad-Cities and he and Mrs. Bigley praised the board with the campaign for holding the first two days during April and May.

The report to be prepared by Dr. Kaiser for board action tomorrow will include recommendations on creation of an advisory committee, a pre-election referendum, and a plan for holding a referendum.

The election is to take place before the end of the spring school term and probably will be held in late May. This preliminary would leave March for conference with the citizens, followed by final decisions by the board, with the campaign for holding the first two days during April and May.

## Baptists To Expand Facilities At SIU

Preliminary plans for the proposed new Baptist Foundation complex to be constructed adjacent to the Southern Illinois University campus, Carbondale, will be submitted to the Illinois Baptist State Association board at its meeting April 21, according to A. C. Queen, president of the Baptist School of Bible and foundation director.

An exchange of property between the Illinois Baptist State Association and the university, already authorized by the boards of the two institutions, will make the new construction possible. The transaction will give SIU the present 24-year-old Baptist student center, located in the heart of the SIU campus, and a 1949 girls' dormitory, also now surrounded by University property. In return, the University will deed to the Baptist group 1.78 acres of University-owned land located in a triangle immediately northwest of University school.

The new complex, only a small portion of which will have to be financed by a self-liquidating loan, will triple the foundation's present dormitory facilities, raising them to accommodate 300 students, half boys, half girls, Dr. Queen said. At present housing facilities in the Foundation Building accommodate 55 boys, while Johnson Hall houses 55 girls.

Other facilities will include a chapel, library, office space, classrooms, conference rooms and a cafeteria, as well as a large all-purpose room for recreational purposes and large banquets. Construction is expected to start about May 1.

## Parking Meter Receipts And Fines Total \$2844

The city of Granite City obtained \$2081 from parking meters and \$163 from parking meter fines for a total of \$2844 during February.

With the parking meters in operation 25 days of the month, the daily average was \$113.76, an increase over the \$90.90 average of January when \$2276 was taken from the meters and \$87 was obtained in fines. The meters were in operation 26 days in January.

Parking meter collections came to \$2873 in February of last year and there were \$74 in fines for a \$2947 total for that month, or \$103 more than last month. With 24 days in operation a year ago, the daily average was \$123, or nearly \$10 a day higher than last month.

Receipts from the parking meters last month may have been higher but some of the coin boxes were stolen from the meters.

## THIS BELIEVE

Since Matthew 28:18-20 contains so little in the way of specific information on Repentance, Faith, the Holy Ghost as a gift to believers, and the value of water baptism, it follows then that the other parts of the last Commission must be elsewhere in the Bible. Read Mark 16:16-20; Luke 24:44-49; Acts 1:1-8 for such specifics.

Now the apostle Peter sums up, and combines the essential elements of the last commission of Jesus, and applies it very clearly in his sermon on the day of Pentecost (Acts 2).

Among the several specific things Peter made plain, but very few will believe him, is the matter of NAME in water baptism. You will remember that Matthew's part of the record quotes Jesus saying: "baptizing them in the NAME (not NAMES) of the Father, and of the Son, and of the Holy Ghost" Matthew 28:19.

Peter said: "and he baptized every one of you in the NAME of JESUS CHRIST." Acts 2:38.

Is this a contradiction? Must we make a choice between Jesus' words and Peter's? Of course not. Peter simply understood what Jesus meant and today men think they understand Jesus better than one who heard Him. You see, Jesus is the NAME of the SON. Now if SON is not Jesus' name, what would possess a person to believe that God's NAME was FATHER? The NAME common to the whole Godhead is JESUS. John 5:43; 14:26.

In every case of water baptism in the book of Acts, every Christian was baptized in the NAME of JESUS, who is Lord and Christ. Acts 2:38; 8:16; 10:48 (R.V.); 19:5. Further articles will show how this is so.

### More SWIU Cultural Funds For Local Group

The Tri-City Community Concert Association is due to get more funds of the Southwestern Illinois University cultural aid to the university board of trustees Friday agreed to make contributions on the basis of student attendance.

Harold Fischer of Granite City, a member of the board, relayed a complaint that the Alton Community Concert Association was getting the major share of the contributions, but that there was a large number of student ticket holders residing in Alton attended the last concert in Granite City.

Dr. Delyte Morris, university president, suggested that the two groups get together to divide fair shares, but Fischer countered with the probability that Alton would not get an inch. The other trustees agreed with him. Alton has no representative on the board.

The board met at the president's office on the new SWIU campus.

### Smoking Issue Factor In School Bus Incident

Frank Mehelic, Rural Route One, a Granite City school board candidate said Saturday that a school bus incident involving him occurred several weeks ago, but he declined to elaborate.

The candidate reportedly halted the bus after noticing students smoking, and attempted to have the smoking stopped, but was reportedly kicked at him, inflicting a lip cut. After the ejection, the bus continued on its route.

Contacted by the Press-Record, Mehelic said the rumors are substantially correct and added that he feels anti-smoking rules should be enforced on school buses. He said he is checking further to determine the responsibility for such enforcement. School authorities said they have received no formal report of the bus altercation.

## Family Data Sought By Census Bureau

A scientifically selected sample of local households will take part in a nationwide survey this month to enable the Bureau of the Census, U. S. Department of Commerce, to update many national figures on specified population characteristics; it was announced today.

In addition to the regular monthly inquiries about employment and unemployment, the March Current Population Survey will include questions on family composition, date of marriage, migration, and income, according to Director Theodore F. Olson of the Census Bureau's Chicago Regional Office.

Regional Director Olson pointed out that all information furnished the Census Bureau is held in strict confidence under Federal law, and cannot be used for investigation, taxation, or regulation. The individuals and households who assist the Bureau by replying to its questions are not identified in any way in its reports. Their replies go into the Census Bureau's high-speed electronic computers and emerge as a useful statistical picture of the United States population.

The Current Population Survey will be conducted here and in 356 other sample areas of the country during the week of March 16.

## Local Reiterates Stand On Direct GC School Talks

A vote of no confidence in Supt. Harold M. Kaiser as a negotiator was approved by Granite City school custodians and employees Local 98 Saturday morning at the Labor Temple. Possible strike action again was discussed.

Officials of the local said a major cause of dissatisfaction is the continued school board opposition to direct talks with union negotiators. While it is the board that has taken this stand, Local 98 spokesmen say Dr. Kaiser apparently agrees and may have added it.

They also are critical of the school district's offer of five-cent wage increases to custodians this year and next year, instead of the ten-cent raises sought. Conceding that they are paid higher than employees of certain other school systems, the custodians feel there are ample reasons for this, which could be explained in direct talks with the board.

Criticism also is directed at the superintendent and board for refusing to balance collective bargaining and income. More of the funds could be diverted to wages, Local 98 contends, with lunch equipment purchased from building fund taxes rather than lunch proceeds.

May Oppose Rate Increase The district has reached its authorized tax rate maximum of \$1.75 in the educational fund, 25 cents in the building fund and two cents in the transportation fund, Supt. Kaiser has recommended an educational rate increase of 25 to 40 cents in a referendum this spring, saying provision should be made for raises for all school employees.

Projecting growth trends into the near future, the district already is over-committed financially, union voters approve a rate boost. Local 98 spokesmen said Saturday that they expect to oppose a rate increase unless they are permitted to negotiate directly with the board.

## Local Reiterates Stand On Direct GC School Talks

A vote of no confidence in Supt. Harold M. Kaiser as a negotiator was approved by Granite City school custodians and employees Local 98 Saturday morning at the Labor Temple. Possible strike action again was discussed.

Officials of the local said a major cause of dissatisfaction is the continued school board opposition to direct talks with union negotiators. While it is the board that has taken this stand, Local 98 spokesmen say Dr. Kaiser apparently agrees and may have added it.

They also are critical of the school district's offer of five-cent wage increases to custodians this year and next year, instead of the ten-cent raises sought. Conceding that they are paid higher than employees of certain other school systems, the custodians feel there are ample reasons for this, which could be explained in direct talks with the board.

Criticism also is directed at the superintendent and board for refusing to balance collective bargaining and income. More of the funds could be diverted to wages, Local 98 contends, with lunch equipment purchased from building fund taxes rather than lunch proceeds.

May Oppose Rate Increase The district has reached its authorized tax rate maximum of \$1.75 in the educational fund, 25 cents in the building fund and two cents in the transportation fund, Supt. Kaiser has recommended an educational rate increase of 25 to 40 cents in a referendum this spring, saying provision should be made for raises for all school employees.

The \$1.70 rate is for lead cooks. The school district has offered other cooks \$1.40 and \$1.50 this year and \$1.50 and \$1.60 next year.

Text Of Letter The letter to Fricker from Local 98 Recording Secretary E. G. Gruen follows: "This is to inform you that the last proposed agreement submitted by the custodians on a two-year contract, we ask for ten cents per hour increase on each year."

## Heavy Canal Locks Use Leading To Record Year

Increasing use of the Chain of Rocks locks at the Granite City harbor indicates another record year in the making for the river transportation industry here.

February totals of 1,945,830 tons of freight brings the two-month figure for this year to 3,476,335 tons, higher than any preceding year, despite the low water level of the Mississippi river north of Cairo which requires less than full loads of many barges.

The total at this time last year was 2,227,825 tons of freight, with February of 1963 showing a mark of 1,139,556 tons.

Last month's activity did not set a February record, however, as in February 1962 a total of 1,983,654 tons were loaded.

Corps of Engineer records showed that last month there were 111 vessels requiring 611 locks, and that for the first two months, there were 6233 vessels and 36,240 locks required to pass 2622 and 776 for the same period last year. The number of lockages required in February 1962 was 395.

All designated as commercial freight, the records showed that 838,530 tons were headed upstream and 1,107,300 tons downstream. The clearing of locks for the month included 699 towboats, 4779 barges, 17 U.S. contractor boats, two private recreation boats, seven U.S. towboats, eight U.S. barges and five patrol boats.

For the first two months, there were 1381 commercial towboats moving 4779 barges, 17 U.S. contractor boats, two recreation boats, 13 U.S. towboats, 24 U.S. barges and seven patrol boats.

Types of commodities hauled, showing upstream figures first, and then downstream, were:

Petroleum products, 328,400 and 199,200; grain, 310 and 760,150; coal, 146,400 (up); cement, sand and gravel, 1950 and 7100; sulphur, 42,000 (up); miscellaneous commodities, 224,600 and 69,375; and steel products, 13,750 and 17,700, and chemicals, 78,870 and 17,700.

A blue and gold dinner was held Thursday evening for Cub Pack 91, sponsored by the Nameoki Presbyterian Church, at the church. Rev. Sherman Wilson gave the opening prayer.

Cubmaster Willis Dreiman introduced the guest speaker, George Bass, neighborhood commissioner, who spoke on the cub scout program and the importance of parents working with their boys and aiding pack activities.

Mrs. Katherine Rojas, representing the VFW Auxiliary, presented American flags to Dens One, Two and Three. All tables were decorated with flags completed by the den mothers. Mrs. Katherine Wilson of Den Two had made an exact replica of the Capitol building in Washington, D. C., with sugar cubes. All name cards were presented in blue and gold.

Awards given were wolf badges and dinner and assistant dinner prizes. Recipients were Karl Dreiman, Gary Wheaton, Joey Raynor, Steve Niconovich, David Slay and Jay Stucke. Entertainment was furnished by the Eagles kitchen band.

Next pack meeting will be held Mar. 20, when the boys will have a rocket race with rockets they have made during the past month. The cubmaster announced the resignation of one den mother and asked for assistance in obtaining more den mothers in the Nameoki area.
